

AUTOMOBILE FACTORY FOR NORWICH

Proposition for the Location of One Here Presented to Industrial Committee of Board of Trade and Other Citizens—Runabout of 10-12 H. P. Costing \$500.

On Wednesday evening in the board of trade rooms there was a gathering of several well known citizens, and also members of the Business Men's association, at a meeting of the industrial committee of the board, for the purpose of hearing a proposition to start an automobile industry in this city, whereby a runabout of standard specifications can be constructed and placed on the market for \$500.

It was through John Buckley that Dr. J. Milton Keeney of New York was induced to come to this city and lay his proposition before the board. They met on the New York boat Tuesday night and Dr. Keeney agreed to come here and see if Norwich would take up his proposition. The matter was explained in detail to the gathering on Wednesday evening and a most favorable impression was gained in regard to the matter, and Dr. Keeney is to return in a few days with his plan for the organization of a company and another meeting will be held regarding the matter.

The mechanical side of the proposition was taken up Wednesday evening, Dr. Keeney showing a blueprint of the car which is proposed to build. He is by no means a novice in the business, having been brought up in it with years of experience and understands fully all the details. With him as a practical engineer is F. G. Merritt of New York, who will probably accompany him here next time.

The runabout would be two-seated, with a box on the back which would hold two suit cases and other articles. It is a two-cylinder car of 10 to 12 horsepower, of attractive lines, and can be placed on the market for \$500 at a profit. His idea would be to manufacture all the parts here and it is his belief that a car can be gotten out ready to use in sixty days from the blueprints. None of the cars of the type in mind has been manufactured, but Dr. Keeney wants to start in business and there are said to be some excellent features to his engine. He holds patents on some of the features. One idea is to have two electric lights on the front, not outside the car, but arranged in the hood.

Dr. Keeney was questioned at length in regard to the plan of starting a factory here and organizing a company. It is the kind of an industry which the city is in the greatest need of and with the sufficient capital to get it going there seems to be a general feeling of approval in regard to the idea. Dr. Keeney has built a car of somewhat different construction, which he tested out thoroughly and ideas gained in that will be incorporated in the new car.

The car is one of excellent lines and attractive appearance, large wheels and strongly built, and the price at which it can be sold would create a demand for it which it is believed would keep a factory busy the year through. If Norwich decides to take the proposition and back it financially Dr. Keeney and Engineer Merritt will come here and look after the mechanical end. Dr. Keeney desires to have the car built and put on the market. He had no plan of organization, but will perfect one and present it before the board on his next visit here. Dr. Keeney said that he would manufacture all the parts and not secure them elsewhere and simply assemble the car here. This will increase the number of employees for such a concern.

Damper for Stovepipes. Friday afternoon the industrial committee of the board meets in their rooms at four o'clock to consider and look into a proposition concerning a damper for a stove and heater pipe. The idea is to locate the business here with the state rights. Chairman L. R. Church of the industrial committee states that the meeting is one to which any one interested in stoves and heaters can attend; in fact, one in which it is desired to have them present.

CLAM CHOWDER

Enjoyed at Central Baptist Church by Rev. P. C. Wright's Bible Class.

The Bible class taught by the pastor, Rev. P. C. Wright, at the Central Baptist Sunday school, met in the church chapel on Wednesday evening at 6.30 for supper. 21 members enjoying a nice clam chowder supper served by a committee of the ladies of the church.

After supper there was a number of brief talks upon topics relating to work which might be done by such a class. Those who spoke were the pastor, Supt. Shepard B. Palmer of the Sunday school, President C. C. Treat of the Men's league, W. D. Tillson, John H. Barnes and Colonel Charles W. Gale.

Third Wedding Anniversary.

On Friday night Mr. and Mrs. George William Burrows of Watrous avenue entertained at dinner John J. Potter, Mr. and Mrs. Sherwood B. Potter and daughter, Mr. and Mrs. J. J. Potter and little son, and Mr. and Mrs. George Draper and Mr. and Mrs. Nathan Brewster. It was the third wedding anniversary of the host and hostess. The house decorations were white lilacs.

In the village of Walchwil, Switzerland, half the natives have the name of Hurlimann.

LADIES' SEWING CIRCLE

Holds Annual Fair at McKinley Avenue A. M. E. Zion Church.

On Wednesday evening at the McKinley Avenue A. M. E. Zion church the Ladies' Sewing circle opened their annual fair and sale, with a good sized attendance. The prettily decorated booths were presided over by the following: Fancy booth, Mrs. D. Eley; Mrs. C. Burr; domestic booth, Mrs. S. Evans, Mrs. G. Johnson; cake and candy, Mrs. A. Smith, Miss L. Scott; tea, Miss E. Eley; grocery, J. Harris; ice cream, M. Brown, C. Reed.

A variety supper was served under the direction of Mrs. M. Sylvia, with assistants, Mrs. M. Brown was cashier, assisted by Mrs. C. Hall. Speed Evans was doctender, assisted by Mr. James. The officers of the society are: Mrs. L. A. Tossitt, president; Mrs. L. French, Vice president; Mrs. J. Hall, treasurer; Mrs. M. Brown, secretary.

Colorado Trout Season.

Norwich people with friends in Colorado have received postals this week, announcing the opening of the Colorado trout season on May 25. The postals are issued by the Denver chamber of commerce, extolling Colorado as the trout fishermen's paradise, with 6,000 miles of bubbling mountain streams, where the state spends \$20,000 annually in restocking with trout fry.
